Optimal Methods and Minimax Polynomials

Hello! This is another test:

The Cauchy-Schwarz Inequality.

This is the C-S inequality for two vectors $a, b \in \mathbb{R}^n$:

$$\left(\sum_{k=1}^n a_k b_k \right)^2 \leq \left(\sum_{k=1}^n a_k^2 \right) \left(\sum_{k=1}^n b_k^2 \right)$$

End of test!

Erratum in Chapter 3. Nonlinear Acceleration

Erratum in Chapter 4. Nesterov Acceleration

Section 4.2 – Gradient Method and Potential Functions

Section 4.2.3 — How Conservative is this Worst-case Guarantee?

The definition of $f(x)$ should contains $+b_\tau$, not $-b_\tau$:

$$f(x) = \begin{cases} a_\tau |x| + b_\tau & \text{if } |x| \geq \tau, \\ \frac{L}{2} x^2 & \text{otherwise,} \end{cases}$$
